Applications using ATBC - Nature-Flexx 509

TCC's NatureFlexx 509 (ATBC) plasticizer is an innocuous plasticizer mainly used as a plasticizer of PVC, cellulose resin and synthetic rubber. It is also used in grain and produce food packaging materials, medical products, soft toys for children, and cosmetics. NatureFlexx 509 plasticizer is also used as a stabilizer of polyvinylidene chloride.
