

PRODUCT SPECIFICATION

Technical Sheet: FSO-40/45 RESIN

DESCRIPTION

Solid Phenolic-Novolac resin for hot sand covering.

PROPERTIES

- | | |
|--------------------------|--------------------|
| • Appearance | Solid yellow color |
| • DMP (°F) | 240 – 250 °F |
| • % Free Phenol | Max.2% |
| • Viscosity (150°C, cps) | Max. 2500 |

PRESENTATION

Solid in flakes packaged in bulk bags of 1,616 lbs.
The flakes of the resin have the following dimensions:

- Length and width: from $\frac{3}{32}$ to $\frac{1}{2}$ inches
- Thickness: $\frac{3}{32}$ to $\frac{5}{32}$ inches

STORAGE

Storage in fresh, dry and clean space with a temperature < 30° kept away from heat sources and acid materials. Avoid humidity exposure.
